"Among other things, this work comments on the complicated attitudes of Americans on illegal immigration from Mexico. The book was printed as a series of two-page board-book spreads that minimize the visual distraction of a 'gutter' on the panoramic view of each skyscape. The edges of the book are rounded and gilded in the fashion of breviaries or missals. The interior pages show the progression of a typical high-desert day from dawn to sunset with a single line of text on each two-page spread." - Artist's blog (http://philipzimmermann.blogspot.com/), entries for Mar. 8, 2010, retrieved Dec. 1, 2010.

African Sanctus is Fanshawe's most successful piece and the subject of an award-winning BBC documentary. It is a thirteen movement composition, blending elements of the Latin Mass and Anglican Liturgy with traditional African music based on recordings that he collected during his expedition down the River Nile in the early 70s. This is a vocal score for soprano solo, mixed chorus and instrumental ensemble. The instrumental parts are available for rent. See www.alfred.com/rental, or email rental@alfred.com.

The Sanctus

Even a cursory glance at the moral state of society, and regrettably, often including the Church, shows a remarkable lack of holiness. Yet God commanded us to be holy, as he is holy. Is not the lack of holiness at the root of much of the weakness of today's church? This in depth study of sanctification centres on what God, Father, Son and Holy Spirit, has done to make us holy, and what the Christian response should be. It understands sanctification as both demanded by, and dependent upon justification, an ongoing process coupled with distinct events of grace. Christ has died for us to enable forgiveness; sanctification is the development of the life of Christ in us. A feature of the book is its provision of several illustrations of the path of Christian sanctification.

One man's sacrifice shocks the world . . . One woman's courage threatens a conspiracy as old as humankind . . . And some will do anything—anything—to keep their secrets in the dark. Sanctus A man climbs a cliff face in the oldest inhabited place on earth, a mountain known as the Citadel, a Vatican-like city-state that towers above the city of Ruin in modern-day Turkey. But this is no ordinary ascent. It is a dangerous, symbolic act. And thanks to the media, it is an event witnessed by the entire world. Few people understand its consequence. But for foundation worker Kathryn Mann and a handful of others, it's evidence that a revolution is at hand. For the Sancti, the cowled and secretive monks who live inside the Citadel, it could mean the end of everything they have built. They will stop at nothing to keep what is theirs, and they will break every law in every country and even kill to hold it fast. For American reporter Liv Adamesen, it spurs the memory of the beloved brother she lost years before, setting her on a journey across the world and into the heart of her own identity. There, she will make a discovery so shocking that it will change everything . . .
